

WP3

Working Package 3: Creation of new curriculum for academic master studies in DBBT

Miroslav Voznak

Faculty of Electrical Engineering and Computer Science

VSB-Technical University of Ostrava

voznak@ieee.org

Description of WP3

- The process of **defining and development of the curriculum model** and all of its properties
- The curriculum model for academic master studies will define precisely **the content, duration and characteristics of the course.**
- Within WP3 will be held **workshops on PC and EU higher education institutions** where the principles and models of curriculum academic master studies in the field DBBT will be defined.
- They will be **based on the analyses performed within the WP1.**

- For the implementation of activities in WP3 will **be established several working groups.**
- The **work of the working group will coordinate the Project Management Committee (PMC).**
- In parallel with the activities of WP3 will be performed activities of WP2 related to the creation of the infrastructure necessary for the full development of the academic master studies programme.
- **WP3 will be completed by book curriculum** for academic master's degree in DBBT.
